

SERVICES

Welcome to a safe and supportive space for healing, growth, and self-discovery.

Life's challenges can sometimes feel overwhelming, whether they show up as stress, anger, confusion, or emotional fatigue. Through compassionate counselling and evidence-based approaches, we help individuals understand their emotions, build inner strength, and move toward a more balanced and fulfilling life. Every person's journey is unique, and our services are designed to support you with empathy, confidentiality, and care—guiding you toward clarity, resilience, and lasting well-being.

Services:

Individual Counselling offers a safe and confidential space to talk about personal challenges and emotions.

It helps individuals gain clarity, self-awareness, and emotional strength.

Sessions focus on managing stress, anxiety, anger, and life transitions.

Clients learn healthy coping skills and positive thinking patterns.

The goal is personal growth, inner balance, and improved well-being.

Couple Counselling helps partners improve communication, understand each other better, and resolve conflicts in a healthy way.

It provides a safe and confidential space to express feelings without judgment.

Sessions focus on rebuilding trust, emotional connection, and mutual respect.

Couples learn practical skills to manage disagreements and life changes together.

The goal is to strengthen the relationship and create a more balanced, fulfilling partnership.

Stress Management

Stress Management helps you cope with daily pressures in a healthy way.

It supports understanding personal stress triggers.

You learn relaxation and calming techniques.

Sessions improve emotional balance and focus.

The goal is a calmer and more balanced life.

Anxiety

Anxiety counselling helps reduce excessive worry and fear.

It provides a safe space to talk about concerns.

You learn ways to calm the mind and body.

Sessions build confidence and emotional strength.

The aim is inner calm and mental well-being.

Time Management

Time Management counselling helps you use time effectively.

It supports setting clear goals and priorities.

You learn to plan daily tasks better.

Sessions reduce stress caused by overload.

The goal is improved productivity and balance.

Memory Tips

Our counselling services help students improve memory and concentration.

We guide students to understand concepts instead of rote learning.

Sessions include practical techniques for better recall and revision.

We support healthy study habits and stress reduction.

The goal is improved academic confidence and performance.

Psychodynamic Counselling Services

Psychodynamic counselling helps you understand deep emotional patterns.

It explores past experiences that influence present thoughts and behavior.

Sessions support awareness of unconscious feelings and conflicts.

This approach helps resolve long-standing emotional difficulties.

The goal is lasting emotional healing and self-understanding.

Marital and Relationship Counselling

Marital and relationship counselling helps couples and individuals improve understanding and communication.

It supports resolving conflicts and emotional misunderstandings.

Sessions provide a safe and respectful space to express feelings.

Guidance focuses on rebuilding trust and emotional connection.

The goal is healthier, happier, and more balanced relationships.

De-Addiction Counselling Services

Addiction can affect not only the individual but also their family, work, and emotional well-being. Our **De-Addiction Counselling Services** provide a safe, confidential, and supportive environment to help individuals break free from dependency and regain control over their lives.

We focus on understanding the emotional, psychological, and behavioral factors behind addiction and work collaboratively to build healthier coping mechanisms and long-term recovery strategies.

Suicidal Intervention Counselling

Suicidal intervention counselling provides immediate emotional support during crisis situations.

It helps individuals feel heard, understood, and safe without judgment.

Sessions focus on reducing emotional distress and restoring hope.

Support is also extended to families and caregivers when needed.

The goal is safety, emotional stability, and gradual healing.

LGBTQ AI+Counselling:

Queer Counseling (LGBTQIA+ Affirmative Support)

Queer counseling offers a **safe, inclusive, and non-judgmental space** for individuals across the LGBTQIA+ spectrum to explore emotions, identity, relationships, and life challenges. It affirms your lived experiences and supports you in building resilience, self-acceptance, and emotional well-being.

Psychometric testing : Psychometric testing uses **scientifically designed tools** to understand an individual's abilities, personality traits, emotional functioning, and behavioral patterns. These assessments provide clear insights that support personal, academic, and professional growth.

Post-Traumatic Stress Disorder (PTSD) Counselling

PTSD counselling supports individuals affected by traumatic experiences.

It provides a safe space to process painful memories and emotions.

Sessions help manage fear, anxiety, and emotional distress.

Therapy focuses on coping skills, emotional stability, and healing.

The goal is recovery, resilience, and improved quality of life.

LGBTQ- This type of counseling can help individuals navigate issues related to their sexual orientation, gender identity, and other related concerns. Our focus is on understanding, acceptance, and helping LGBTQ people live their life with dignity and confidence.

Adolescent counselling: Adolescent counselling provides a safe and supportive space for young individuals to navigate the emotional, social, and academic challenges of growing up. It helps teenagers better understand themselves, manage stress, and build healthy coping skills. Through a compassionate and non-judgmental approach, counselling fosters confidence, resilience, and emotional well-being. Early support empowers adolescents to develop into balanced and self-aware individuals.

Sex Counselling : Sex counselling provides a safe, confidential, and non-judgmental space to discuss concerns related to intimacy, relationships, and sexual well-being. It helps individuals and couples better understand their needs, address challenges, and improve communication. Through a respectful and evidence-based approach, counselling supports emotional connection, confidence, and healthy sexual expression. Seeking support can lead to more fulfilling relationships and overall well-being.

Marriage Counselling : Marriage counselling creates a secure and non-judgmental environment where couples can address challenges, strengthen communication, and reconnect emotionally. It enables partners to gain insight into each other's perspectives, resolve conflicts constructively, and rebuild trust. Guided by a compassionate and evidence-based approach, counselling nurtures emotional intimacy, mutual respect, and healthier relationship patterns. Seeking support can foster lasting harmony, resilience, and meaningful relationship growth.

Pre Marriage Counselling : Pre-marriage counselling provides a thoughtful and structured space for couples to prepare for a healthy and lasting partnership. It helps partners explore expectations, values, communication styles, and future goals before marriage. Through a supportive and evidence-based approach, counselling strengthens understanding, builds emotional readiness, and equips couples with effective conflict-resolution skills. Seeking guidance early fosters clarity, compatibility, and a strong foundation for married life.

Post Marriage Counselling : Post-marriage counselling offers a supportive and structured space for couples to navigate the realities of married life and strengthen their bond. It helps partners address emerging challenges, improve communication, and adapt to changing roles and expectations. Through a compassionate and evidence-based approach, counselling fosters understanding, emotional connection, and effective conflict resolution. Seeking support can promote stability, resilience, and a more fulfilling married life.

Break Up Counselling: Breakup counselling provides a safe and compassionate space to process the emotional pain and uncertainty that often follow the end of a relationship. It helps individuals understand their feelings, rebuild self-esteem, and develop healthy coping

strategies. Through a supportive and evidence-based approach, counselling encourages healing, emotional resilience, and personal growth. Seeking guidance can help transform a difficult ending into an opportunity for renewed clarity and inner strength.

Couples Counselling: Couples counselling offers a collaborative and supportive environment where partners can openly explore concerns and strengthen their connection. It focuses on improving communication, resolving conflicts, and deepening emotional understanding. Using a respectful and evidence-based approach, counselling helps build trust, empathy, and healthier relationship patterns. Engaging in this process can enhance relationship satisfaction, stability, and long-term emotional well-being.

Divorce Counselling: Divorce counselling at our practice offers a safe, confidential, and supportive space to navigate the emotional and practical challenges of separation. We help individuals and couples process complex feelings, manage conflict, and make thoughtful, informed decisions during this transition. Using a compassionate and evidence-based approach, we support emotional healing, clarity, and resilience. Our goal is to help you move forward with confidence, stability, and a renewed sense of direction.

Domestic Violence Counselling: Domestic violence counselling at our practice offers a safe, confidential, and non-judgmental environment for individuals experiencing or recovering from abuse. We support clients in processing trauma, restoring self-worth, and developing effective coping and safety strategies. Guided by a compassionate and trauma-informed approach, we foster empowerment, emotional healing, and a renewed sense of control. Our aim is to help you move forward with strength, resilience, and a greater sense of safety and stability.

Parental counseling:

Learning disability counseling- Learning Disabilities Counselling supports children in overcoming academic and emotional challenges associated with difficulties such as dyslexia, dysgraphia, and dyscalculia. Through personalized strategies, we help build confidence, improve learning skills, and promote overall well-being.

Abandonment Counselling

Abandonment Counselling helps individuals heal from the deep emotional impact of feeling left, rejected, or unseen. Whether rooted in childhood experiences or later relationships, these patterns can affect self-worth, trust, and emotional security. Through a compassionate and structured approach, we support you in rebuilding confidence, developing healthier connections, and creating a sense of inner stability.

Adolescent Counselling

Adolescent Counselling provides a safe and supportive space for young individuals to navigate the emotional, social, and academic challenges of growing up. This phase of life brings rapid changes, and our approach helps adolescents build self-awareness, confidence, and resilience to handle pressures with clarity and balance.

What We Address

- Stress, anxiety, and mood changes
- Academic pressure and performance concerns
- Low self-esteem and identity confusion
- Peer pressure and social challenges
- Emotional regulation and behavioural concerns
- Screen time, focus, and lifestyle balance

ADHD Counselling

ADHD Counselling supports children, adolescents, and adults in managing challenges related to attention, impulsivity, and hyperactivity. With a strengths-based and compassionate approach, we help individuals improve focus, build structure, and develop skills to navigate daily life with greater confidence and clarity.

What We Address

- Difficulty with focus, attention, and task completion
- Impulsivity and emotional outbursts
- Restlessness and hyperactivity
- Time management and organization challenges
- Academic or workplace struggles
- Low self-esteem linked to performance difficulties

Behavioural Counselling

Behavioural Counselling focuses on understanding and reshaping patterns of behaviour that impact emotional well-being, relationships, and daily functioning. Through a structured and compassionate approach, we help individuals replace unhelpful habits with healthier responses, enabling positive and lasting change.

What We Address

- Anger management and emotional outbursts
- Negative habits and repetitive behaviours
- Difficulty with self-control and impulsivity
- Stress-related behavioural patterns
- Social and interpersonal challenges
- Motivation and consistency issues

Family Counselling

Family Counselling provides a supportive space for families to improve communication, resolve conflicts, and strengthen emotional connections. Every family faces challenges, and our approach focuses on fostering understanding, rebuilding trust, and creating a harmonious environment where each member feels valued and heard.

What We Address

- Communication gaps and misunderstandings
 - Parent-child conflicts
 - Relationship stress within the family
 - Emotional distance or lack of connection
 - Life transitions (adolescence, relocation, loss)
 - Managing expectations and boundaries
-

Parenting Counselling

Parenting Counselling offers guidance and support to help parents navigate the challenges of raising children with confidence and clarity. In today's fast-changing world, parenting can feel overwhelming—our approach empowers you with practical strategies, emotional understanding, and mindful communication to build a strong and nurturing relationship with your child.

What We Address

- Managing child behaviour and discipline
- Communication gaps with children/teens
- Emotional outbursts and parenting stress
- Screen time, routines, and consistency
- Academic pressure and motivation
- Building boundaries with empathy

SOCIAL PERSONAL ISSUES

Low Self-Esteem Counselling

Low Self-Esteem Counselling helps individuals reconnect with their sense of self-worth and inner confidence. When self-doubt, negative thinking, or past experiences begin to shape how you see yourself, it can impact every area of life. Our approach focuses on building a healthier self-image, strengthening inner resilience, and helping you step into your true potential with confidence.

What We Address

- Self-doubt and negative self-talk
- Lack of confidence in personal or professional life
- Fear of failure or judgment
- Comparison and feelings of inadequacy
- Difficulty setting boundaries

- Impact of past experiences on self-worth

GRIEF COUNSELLING

Heal at Your Own Pace, With the Right Support

Grief can feel overwhelming, unpredictable, and deeply personal. Whether you are coping with the loss of a loved one, a relationship, or a life transition, you don't have to go through it alone.

We provide a safe, understanding space to help you process your emotions, find meaning, and gently move forward.

Understanding Your Grief

Grief is not a straight path—it is a journey with different emotional experiences. You may notice:

- **Denial** – “This doesn't feel real”
- **Anger** – “Why did this happen?”
- **Bargaining** – “If only things were different...”
- **Deep Sadness** – Feeling withdrawn or heavy
- **Acceptance** – Slowly adjusting and finding peace

 You may move between these feelings—and that's completely natural.

Anger Management Counselling :

We provide anger management counselling to help you understand and regulate intense emotions. Our sessions focus on identifying triggers and underlying causes of anger. We equip you with practical strategies to respond calmly and constructively. Our goal is to support emotional balance and healthier relationships.

Depression Counselling:

We offer depression counselling tailored to your individual needs. Together, we explore underlying concerns and emotional challenges. You will learn practical ways to manage low mood and regain motivation. This process encourages clarity, strength, and gradual recovery.

Bi Polar Disorder Counselling:

Our counselling supports individuals navigating bipolar disorder and mood changes. We focus on recognizing early signs and managing emotional fluctuations. You will develop coping skills, routine-building, and self-monitoring strategies. This helps create consistency, control, and a more balanced life.

Panic Attack Counselling:

Our counselling helps you cope with panic attacks and overwhelming fear. We focus on awareness, grounding, and regulation techniques. You will develop skills to respond calmly during intense moments. This leads to reduced anxiety and a greater sense of ease.

Bullying Counselling:

Our counselling supports individuals affected by bullying and emotional distress. We focus on building self-awareness, confidence, and emotional resilience. You will develop skills to cope, respond assertively, and regain a sense of control. This leads to improved self-esteem and a stronger sense of safety and well-being.

Eating Disorders Counselling:

Our counselling supports individuals struggling with eating-related concerns and emotional distress. We focus on understanding patterns, thoughts, and underlying triggers. You will develop healthier coping strategies and a balanced relationship with food.

This leads to improved well-being, self-acceptance, and overall emotional health.

Overthinking Counselling:

Our counselling helps you break free from repetitive and overwhelming thought patterns. We focus on gaining clarity, managing uncertainty, and calming the mind. You will learn techniques to reduce rumination and make more confident decisions. This supports a clearer mindset, emotional ease, and improved daily functioning.

Negative Thinking Counselling:

Our counselling supports you in managing self-critical and negative thoughts. We focus on awareness, reframing, and emotional regulation. You will learn practical strategies to shift your thinking patterns. This helps create a more positive outlook and balanced state of mind.

Insomnia and other sleep disorders Counselling:

Our counselling helps you address insomnia and ongoing sleep challenges. We focus on calming the mind and creating effective sleep habits. You will learn tools to manage restlessness and nighttime overthinking. This leads to more restful sleep and a balanced lifestyle

Personality Counselling :

We provide personality counselling to help you better understand yourself. Together, we explore traits, patterns, and interpersonal dynamics. You will develop skills to navigate challenges and enhance strengths. This supports confidence, balance, and meaningful personal development.

Career Counselling:

Our counselling supports you in making informed career decisions. We focus on understanding your strengths, interests, and goals. You will gain clarity on suitable career paths and opportunities. This leads to confident choices and meaningful professional growth.

Education Counselling:

Our counselling supports students in making informed educational choices. We focus on understanding interests, strengths, and academic goals. You will gain clarity on suitable courses and learning pathways .This leads to confident decisions and academic success.

Work-life Balance Counselling:

We provide counselling to help you manage work-life pressures more effectively. Together, we explore routines, responsibilities, and stress patterns. You will develop skills to balance productivity with personal well-being. This supports greater satisfaction, clarity, and emotional balance.

Menopause Counselling:

Our counselling supports women navigating menopause and related changes. We focus on understanding emotional, physical, and lifestyle shifts. You will learn strategies to manage mood changes, stress, and discomfort. This leads to greater balance, confidence, and well-being.

Alzheimer's Counselling:

Our counselling provides structured support for individuals with Alzheimer's and their caregivers. We focus on cognitive changes, behavioural symptoms, and emotional responses .Interventions include evidence-informed strategies for communication and daily management. This supports improved functioning, caregiver confidence, and quality of life.

Dementia Counselling:

We offer clinically guided counselling for dementia-related concerns. Sessions address memory decline, behavioural patterns, and psychological impact. We use structured techniques to support coping, routine-building, and care planning. This promotes safety, consistency, and overall well-being.

Phobia Counselling:

Our counselling supports individuals in overcoming specific fears and phobias. We focus on understanding triggers and anxiety responses. You will learn gradual, structured techniques to face and reduce fear. This leads to increased confidence and improved daily functioning.

Motivation Counselling:

Our counselling helps you overcome lack of motivation and regain direction. We focus on identifying barriers, goals, and personal drivers. You will learn strategies to build consistency and take purposeful action. This leads to increased focus, confidence, and productivity.

EAP:

Our EAP counselling supports employees in managing personal and work-related concerns. We focus on stress, emotional well-being, and workplace challenges. You will receive confidential guidance and practical coping strategies. This leads to improved well-being, productivity, and work performance.
